A	B	C	D	E	F	G	H
---	---	---	---	---	---	---	---

#### Outlook (for coming cycle)

↑	Will Improve
→	Will remain same
↓	Will deteriorate

#### Confidence Level

✓	?
Reliable	Unconfirmed

#### Supplementary notes(Describe by clusters):

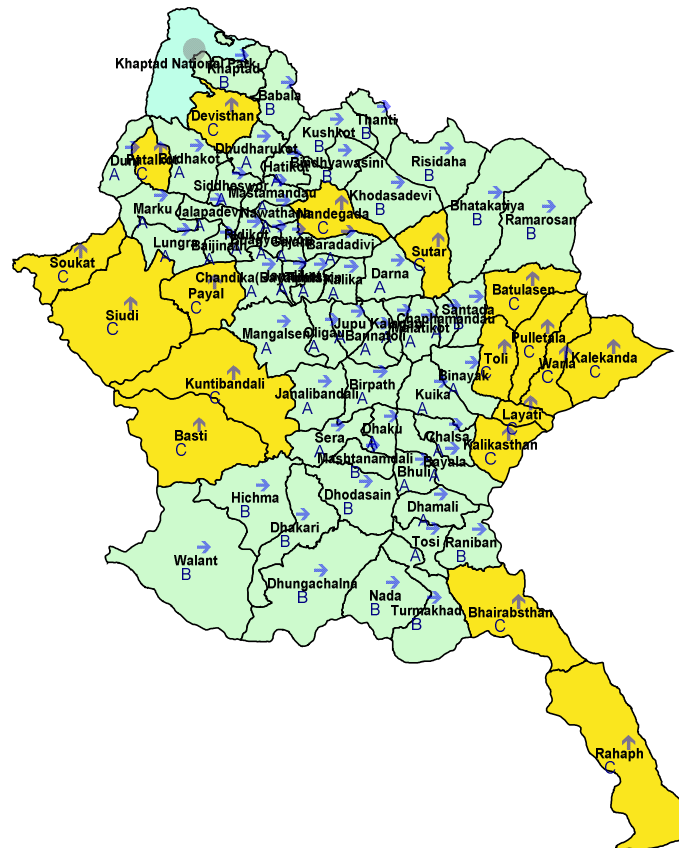

The overall food security situation of the district.....

Achham district is minimally food insecure to moderately food insecure during this reporting period. Out of 75 VDCs, 38 VDCs of cluster A and 17 VDCs of cluster B are minimally food insecure whereas 15 VDCs of cluster C are moderately food insecure. This is mainly because of Summer crops harvest was normal, HHs food stock is sufficient for 4 months and all the seasonal road are open with regular vehicle movement.

Cluster A- These VDCs are highly productivity with high Irrigation facilities. Summer crops production was normal so, HHs food stock sufficient for >4 months, normal wage opportunities, Normal /traditional coping.

Cluster B- Summer crops production was normal, presence of development agencies is continue creating wage opportunities. HHs food stock sufficient for 4 months from different source, Normal/traditional coping.

Whereas in Cluster C- These VDCs have Low Productivity Land areas with less Irrigation facilities. HHs food stock for around 2-3 months, less wage opportunities, lean period for crop harvesting.

	Total No. of persons affected
