

## District Food Security Synthesis Template

District: Bajura

Reporting period: 16 Nov to 15 March 2014

Outlook period: 16 March to July 2014

Date of DFSN meeting: 7th April 2014

FS phases (1, 2, 3, 4, 5)	Clusters (a,b,c...)	Situation Analysis (please mention about main indicators - depending on location -, i.e.: HH food stock, market food stocks, out-migration, coping)	Causes of the situation (please mention relevant causes, i.e: crop failure, natural disasters, lack of employment opp., high food prices, civil security, sale agric. products, marginal/small agric. plots, remoteness...)	Outlook (↑→↓)	Rationale behind the choice of the outlook (i.e. crop harvest with effect on Hh food stocks, market access/supply, sales agric.products, humanitarian assistance...)	How has it changed since last quarter?
1	A	<p># Winter crop Situation is normal, # Most HHs food stock is sufficient for 3-4 month # Key markets have sufficient food stock, # Wage employment are there People are coping traditionally.</p>	<p># Timely plantation, good germination, use of improved seeds and sufficient rainfall # normal production was summer crops (maize,Millet and paddy) # Functional road regular supply of food and Non food items without blockage # presence of development agencies RAP-3 RVWRMP,DRILIP etc. and GOs- DDC, VDCs. so they are creat wage employment.</p>	→	<p>Harvestment of winter crops which is normal will increase HHs food stock level for more than 4 months and key markets and NFC will have sufficient food stock. Wage employment oppourtunities will be there</p>	<p>There is no changes food security situation.</p>
1	B	<p>Winter crop situation is normal # HHs food stock is depleting sufficient for 2-3 month. # limited wage oppertunity almost HHs are depend on buy food from NFC and Market # Key markets and NFC have sufficient food stock, People are coping browng loan,sale of small livestock</p>	<p># Timely plantation, good germination, use of improved seeds and sufficient rainfall # Lean period for crop harvest # Due to regular supply of commodities without blockage # less presence of development agencies due to funding problem</p>	↑	<p>Harvestment of winter crops which is normal will increase HHs food stock level for more than three months and key markets and NFC will have sufficient food stock. Wage oppourtunities will be creat by WFP/MLD under RCIW programme People will cope traditionally by doing wage labor, potering.</p>	<p>VDCs of this cluster were generally food secured during last cycle but due to lean period these VDCs are moderately food insecured.</p>
2	C	<p>Winter crop situation is moderate # HHs food stock is depleting sufficient for 2-3 month. # limited wage oppertunity almost HHs are depend on buy food from NFC and Market # Key markets and NFC have sufficient food stock, People are coping browng loan,sale of small livestock</p>	<p># Hailstorn occured in 4th week of falgun so crop production will be decrease Due to lean period of crop production # Due to regular supply of commodities without blockage .Wage employment reduce by arrouund 20-30% Compare to last year Due to limited food stock,</p>	↓	<p>winter crop production will be decrease by 30-40% due to hailstorn it is not sufficient for 4 month and possibility of price increase due to rainy season</p>	<p>VDCs of this cluster were generally food secured during last cycle but due to lean period these VDCs are moderately food insecured.</p>
